Tom Tom Noodle House Fact Sheet

DESCRIPTION: A fast, casual Pan-Asian Restaurant – Modern New York Noodle House, dine-in, takeout or delivery. The perfect spot to meet friends for beer, wine or sake and broth noodles or stir frys.

INTERIOR DESIGN: As in the food, the theme of the detailed simplicity is carried throughout the restaurant, from a rock garden in the front to the patio outside. Front doors are built from a welcoming Brazilian walnut and a square of orange transparent glass is cut into the door, casting a warm inviting glow. Bamboo reed and grass shades are used as window coverings and screens. The rooms are warmed and lit by a few scattered candles and hanging Asian lanterns, custom designed from silk and soft, handmade paper. The restaurant is built with organic materials: wood, silk and other fabrics – a little bit of stone, a little bit of steel.
